

## Market Release Note

MRN\_TVRR Mobile App 3.2.9

---

Product number: TruVision TVRRMobile

Product description: TVRR Mobile App

Release date: 10<sup>th</sup> July 2024

---

Aritech is pleased to announce the immediate availability of the next version of the TVRRMobile for Android. The app has been updated to work with the Google push messages new mechanism. The iOS version is not affected.

## Improvements

- Upgrade to the Android app push message mechanism, based on recent Firebase notification service API depreciation.

**IMPORTANT:** As a result of this update, the user will need to disable and enable the push messages in the app for each device. To achieve this, go to the main menu, select Alarm, and disable, enable the alarm setting for each device. If push messages cannot be received, relaunch the app or delete and add the device again.
