Key Cabinets

Locking Key Cabinet

Ideal for families and small offices, the electronic Locking Key Cabinet has a hidden chamber for long-term storage or for special keys, and adjustable peg hooks for large-sized key rings. The Locking Key Cabinet features a resettable combination and a lockout feature, and notifies you with audio tones when your code is entered correctly so you can open the door. The cabinet includes a low-battery indicator.

Key Cabinet Pro – Keyed

The heavy-duty steel Key Cabinet Pro comes with a standard cam lock and two keys. The cabinets include numbered key tags with key rings and a lock location chart for easy reference. Constructed from 16-gauge steel, with more depth for larger key rings, the Key Cabinet Pro lets you quickly hang key rings directly on its hooks. Key Cabinet Pro is available in 30-key, 60-key, and 120-key sizes.

TouchPoint™ Key Cabinet Pro

With over 1,000 resettable combinations, office managers can issue codes, instead of keys, to temporary employees – simply changing the code when needed. Rugged, with heavy 16-gauge steel construction and a clutch mechanism to protect from forced entry, the Key Cabinet Pro is deep enough for large keys. It includes numbered key tags so you can access keys quickly, organizing all your keys in one secure location. TouchPoint Key Cabinet Pro is available in 30-key, 60-key, and 120-key sizes.

KeyTags

Additional KeyTags may be ordered as an accessory. Save the time and inconvenience of searching through unlabeled keys.

Supra

A UTC Fire & Security Company

Supra is a global provider of electronic key management systems that offer solutions for real estate, property management, automotive and industrial sectors. Supra's technologies are used to securely store keys and manage key access rights.

KeySafes

All KeySafe models have codes that can be changed any time for added security. They are constructed from solid metal to withstand rain, snow and freezing conditions. KeySafes are ideal for after school access, rental or holiday properties and emergency access.

KeySafe Original (Slimline)

Slimline KeySafe simply attaches to any wall or flat surface with mounting hardware included. This compact version holds two keys. The interlocking faceplate deters tampering and unauthorized access.
• Stores up to 2 keys.
• Pushbutton lid.
• Available in white, clay and titanium.
• Mounts easily (screws included).
• Size: 3.88 x 2.31 x 1.69 in.

KeySafe Original (Portable)

The Portable version hangs easily on doorknob, fence, railing or pipe. Just open the lid, lift the shackle and hang. No tools necessary. Portable KeySafe is constructed of sturdy metal with protective rubber shell and is guaranteed never to rust.
• Stores up to 3 keys.
• Pushbutton lid.
• Available in black, clay and titanium.
• Size including shackle: 4.44 x 5.75 x 1.8 in.
• Also available in over-the-door mount design, 3.38 x 4.13 x 2.22 in.

KeySafe Original (Permanent)

The StrongBox design has a solid track record for unmatched quality and security.
• Stores up to 5 keys.
• Pushbutton lid.
• Available in white, clay and titanium.
• Mounts easily (screws included).
• Size: 4.13 x 2.53 x 2.22 in.

KeySafe Pro

The KeySafe Pro is perfect for storing access cards, multiple keys and keys with large handles. Patented pushbutton technology allows quick and convenient access, perfect for shops and maintenance crews needing to store multiple keys.

KeySafe P500

The KeySafe P500 is our strongest KeySafe ever!!

We paired our easy to use pushbutton design with a heavy duty, triple wall vault and long travel clutching lock. We also added 2 more buttons for 4,096 possible combinations. To provide even more peace of mind, an optional alarm sensor is available that can be connected to an alarm system for even more security. Perfect for commercial buildings, property management or anywhere you want additional security.

Locking Stor-A-Key

Popular with consumers who desire an extra level of deterrence when hiding their spare keys, this unique, affordable, locking key storage case is an attractive option for safely storing keys in a variety of locations. Attaches to almost any surface using a magnet or adhesive tape provided.

Portable Stor-A-Key

A versatile locking key case that can be mounted by wrapping its adjustable cable around a fence, backpack, canoe, car or bike rack, trailer, boat and more. Its attractive, portable design offers room for cash and keys. Available in three eye-catching colours, this case has a resettable combination lock.

TouchPoint OEM Locks

Manufacturers and locksmiths can add the convenience of Supra's AccessPointTM consumer products to furniture, cabinets, and other enclosures with the TouchPointTM lock for designers and original equipment manufacturers. Designed to replace a standard cam lock, the TouchPoint Lock consists of a solid die cast body with a ten-digit changeable combination and a clutch mechanism to turn the cam. The TouchPoint Lock is available with brackets, to be flush-mounted into a door or surface; or with a faceplate for mounting on top of the door or surface.
